NEW ENGLAND ROSES

EVERBLOOMING HYBRID TEA ROSES

From the long list of the many varieties of Roses offered each year to the gardening public, you find here listed only a selected few. In line with our policy, "to serve New England first and best" we offer only those varieties that have proven themselves for plant-vigor and blooming habits under our rugged New England conditions.

These Everblooming Hybrid Tea Roses may be depended upon to give beautiful blooms over a long period of time. Our strong, 2-yr., field-grown dormant plants used to fill your orders will begin to bloom 10 weeks after planting and continue until frost. An average good garden soil, able to produce flowers or vegetables will produce lovely Roses on these New England Selected varieties.

Forty-Niner

Everblooming Hybrid Tea Roses The Newer All America Rose Selections

While we offer here only a few of the more recent All America Rose selections, they are, in our opinion, the most outstanding newer varieties. They should have a place in the gardens of both the old and new lover of Roses.

AARS FORTY-NINER. Bicolor. Pat. 792. Probably the most brilliant of all bicolors. Its contrasting colors are startling in their brilliance. Inside of petals a vivid orient red; outside a chrome-yellow changing to straw-yellow. \$2.00 each, 3 for \$5.25.

AARS CHARLOTTE ARMSTRONG. Red. Pat. 455. The color is warm red in the bud, opening to cerise. Large, long-lasting, fragrant flowers, and deep, green foliage. \$2.00 each, 3 for \$5.25.

AARS FRED HOWARD. Pat. 1006. Long, rich yellow buds, tipped with a delicate penciling of light pinks—a huge, double, 4 to 5 inch flower — vigorous grower. \$2.75 each, 3 for \$7.20 (Illustrated in color on Back Cover)

CLIMBING ROSES (Large-Flowered)

Climbing Roses offer a vast amount of bloom in a limited space that is unmatched by any other Rose. The large-flowered varieties furnish the exciting pleasure of a massive wealth of color and profusion of bloom that has obtained for the Rose its universal appeal.

AMERICAN PILLAR. Fast grower with glossy foliage. Trusses of single flowers of scarlet-rose color with large white centers. \$1.35 each, 3 for \$3.45.

BLAZE. Vivid scarlet masses of blooms in early Summer and again during the season. Everblooming. \$1.50 each, 3 for \$3.95.

CLIMBING AMERICAN BEAUTY. Large, fragrant flowers of brilliant carmine. \$1.35 each, 3 for \$3.45.

CLIMBING BREAK O'DAY. Very vigorous, everblooming climbing sport of "Break O'Day"; a very nice climber. Orange to apricot color. \$1.75 ea., 3 for \$4.65.

DR. VAN FLEET. Many long-stemmed, beautiful Hybrid Tea-like flowers of a soft pale shade of flesh pink. \$1.35 each, 3 for \$3.45.

EXCELSA. Intense crimson-maroon. \$1.35 each, 3 for \$3.45.

GOLDEN CLIMBER (Mrs. A. C. James). The supreme yellow climbing Rose. Fragrant; ideal for picking; very long, stiff stems. \$1.75 each, 3 for \$4.65.

MARY WALLACE. Large, bright pink flower with luminous sheen. Very strong grower. \$1.35 each, 3 for \$3.45.

NEW DAWN. Beautiful flesh pink. The first plant to receive a patent for its everblooming habit. \$1.50 each, 3 for \$3.95.

PAUL'S SCARLET CLIMBER. The popular and widely planted climbing red Rose. The intense red flowers are borne in loose clusters. Very satisfactory. \$1.35 each, 3 for \$3.45.

PRIMROSE. Large, double flowers of rich primrose-yellow. \$1.35 each, 3 for \$3.45.

SILVER MOON. Moon-white, large flowers; yellow center; handsome foliage. \$1.35 each, 3 for \$3.45.

NOTE

Climbing Roses do not, as a rule, bloom the first year. However, you may have a few blooms the first year—but they are small, not true to color and do not represent the true blooms you will get the second year.

Blaze. \$1.50 each, 3 for \$3.95

DELPHINIUMS

**RICH SPIRES
OF COLOR**

The regal stateliness of massive spires of blooms in gorgeous colors—lend a richness of quality that transforms an otherwise ordinary flower group into one of sheer loveliness and charm.

The tall 20 to 30 inch spikes of flowers, in delicate color shades on hardy, rugged plants, will do more than any other perennial to give a lift to your garden.

All plants for Spring delivery are well established in 2-inch wooden plant bands and will transplant without difficulty.

BEAUTIFUL SWEET PEAS

CULTURE: Sow seed as soon as the ground can be worked in the Spring. Dig a trench about a foot wide and deep and fill in with 6 inches of well-rotted stable manure; tread down firmly and sow seed at even distance of about 3 inches and cover. When the plants grow about 3 or 4 inches high, thin out to 6 inches from each other. As soon as the vines reach a height of about 8 inches, proper support should be provided.

7000 Special Exhibition Mixture. This mixture is made up entirely of the Spencer types and includes the finest sorts and most effective colors. Pkt. 10c., oz. 50c., $\frac{1}{4}$ lb. \$1.75.

SUBURBAN BOSTON MIXTURE OF ANNUAL FLOWER SEEDS AN INTERESTING MIXTURE OF MANY ANNUALS

Pkt. 25c., oz. 40c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00

This splendid mixture of practically all the annuals in our catalog, except Sweet Peas and Nasturtiums, gives a wonderful display of color and variety to the garden from early Summer to frost. For those whose gardening time is very limited, it provides an easy way to have plenty of flowers for home decoration as well as a gay border or bed outside. Sow in a well enriched, sunny bed about May 1st, pulverizing and raking the top soil smooth and fine, then broadcast the seeds and rake in lightly. If the soil is dry, water well with a very fine spray so as not to dislodge the fine seeds.

Pkt. 25c., oz. 40c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00

EARLY VARIETIES

Chippewa. A heavy cropping, early variety; the tubers are oval shape, skin white, fine table quality. One of the best.

Irish Cobbler. Cream-white color and of excellent quality. A vigorous grower. Ripens uniformly and keeps well.

LATE VARIETIES

Green Mountain. We can recommend this variety as one of the best for all purposes.

Katahdin. Matures about a week later than Irish Cobbler. White skin and white flesh, with a very shallow eye. Handsome, oval shape. Excellent cooking quality.

STARTED VEGETABLE PLANTS

It's Easy to Have Beauty

Planned and Planted by Littlefield-Wyman Nurseries

Here is a garden that invites us in to enjoy its beauty—to enter its restful atmosphere, and be led further on by the suggestion of hidden, pleasurable interests—or to absorb the quiet, lovely small details that make up this beautiful garden.

This garden speaks to us—the tree, of age; of rugged, massive strength; of lofty height—the stone-walls, of permanence—the partially seen bird-bath of life; movement and music—the pool, of coolness and tranquility and slowly moving fish—a lazy frog—the Lilac and the distant Phlox, of color and perfume—the grass, of comfortable, relaxing movement on our part—all the subjects of this garden join together in a harmonious story that appeals;

But—

—It Didn't Just Happen!

Planning is important. It takes thought to join the tree with the Lilac—the evergreen with the pool—the stone wall with the house and bring them all together in a pleasing garden picture.

A good plan is valuable, and very necessary to the success of such a project. It offers a well organized means of studying your site problems and planting needs. It is a permanent record. It is a useful basis for estimating costs and for budgeting. It is essential to carrying out the

work as it shows the location of each plant and group of plants and all other areas and objects that are part of the site development.

You can make such a plan yourself for your own home. As a rule, however, results are better and less costly when professional skill is available for an owner's aid. We can provide such help. We have on our staff, men well schooled and experienced in the principles and practice of landscape design and planning. It will pay you to talk with them about a planting plan for your own property. There is no charge or obligation for such a consultation. Let's talk it over.

GROUND COVERS

Often the finest plants, though in the right position, fail to create the landscape effect we desire. Like the separate parts of a prefabricated house they must become a united part of the whole for their true worth to be recognized. **GROUND COVERS** tie together and unite the various plantings to make a more harmonious and pleasing garden treatment. This group may be used under plants, where grass will not grow, shady places, along walks.

EUONYMUS COLORATUS

(Purple Wintercreeper)

A strong grower with brilliant bronze foliage in Winter. Makes an interesting and different evergreen ground cover.

2-year plants.....\$0.75 each, \$6.50 per 10

HARDY VINES

The lavish contribution that vines give your garden picture is often overlooked. Without this class of plants to fill in, hide, and soften harsh, barren or objectionable features our gardens would be flat and lacking in full beauty. Improve your garden beauty with the colorful, attractive curtains of nature—**VINES**.

CLEMATIS—Large Flowering Hybrids

Wealth of color and interest may be added to your garden by the use of these lovely Decorative Vines. For a pleasant, informal note, we highly recommend them.

HENRYI (Illustrated). Large, creamy white flowers with strong, contrasting stamens.

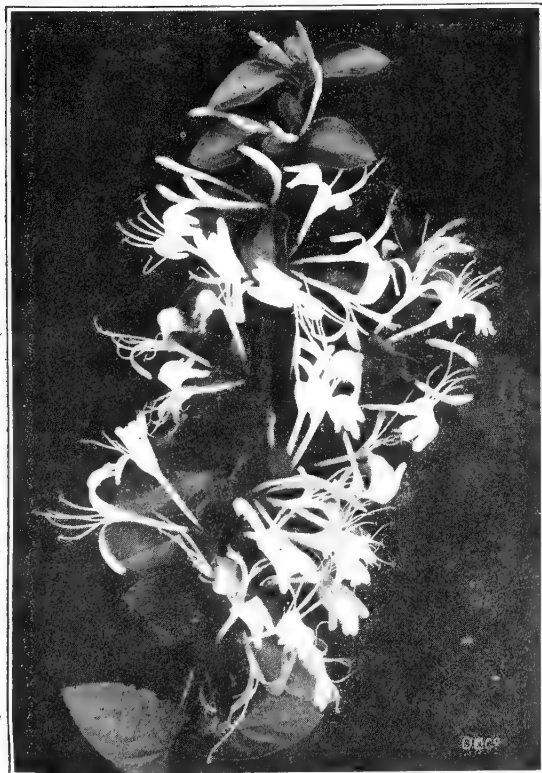

Wisteria

WISTERIA

Wisteria sinensis (Chinese Wisteria). This is the old favorite. Long, pendulous, lavender-blue flower clusters. Fine foliage and strong growth.

This hardy vine is one of the choicest and most satisfactory of vines. Strong, rapid growth with dense foliage and fragrant, delicate, small, white, star-shaped blossoms.

Strong, 2-year plants—95c. each, 3 for \$2.55

HYDRANGEA

HYDRANGEA PETIOLARIS (Climbing Hydrangea)

One of the finest and most artistic vines—very hardy. Foliage is large and bold. Four-petaled white flowers in 6 to 8 inch clusters. Will cling to walls or other supports. Not common.

Potted Plants—\$2.25 each, 3 for \$6.25

FLEECEVINE

POLYGONUM AUBERTI (Chinese Fleecevine)

A strong, vigorous, rapid growing vine. In late Summer and Fall is covered with feathery sprays of white flowers.

2-year plants—\$1.25 each, 3 for \$3.45

EUONYMUS

(EVERGREEN BITTERSWEET)

Euonymus fortunei radicans (Wintercreeper). A prolific grower, covers walls or stonework closely. Leaves are a dull green with whitish veins. 2-year, 95c. each; 3-year, \$1.35 each; 4-year, \$1.75 each.

fortunei carrieri (Glossy Wintercreeper). A strong grower with large, glossy pointed green leaves. If planted without support will grow as a bush—with support will grow as a vine. 3-year plants, \$1.35 each.

E. fortunei kewensis (Baby Wintercreeper). Very small, dark green foliage. Creeps close to the ground. Valuable plant for a shady place. Fine, small ground cover under small trees. Potted plants, 75c. each, \$6.50 per 10.

E. fortunei vegetus (Bigleaf Wintercreeper). The strongest grower. Large, leathery leaves. Develops orange-red berries which remain on plant greater part of Winter. 2-year, 95c. each; 3-year, \$1.35 each; 4-year, \$1.75 each.

BITTERSWEET

(CELASTRUS ORBICULATUS)

This is, in our opinion, the most artistic and decorative Bittersweet variety. Big, showy clusters of orange berries in Fall, fast grower. 3-year plants, 75c. each, 3 for \$1.85.

HONEYSUCKLE

LONICERA HECKROTTI (Summer King Honeysuckle)

Large clusters of flame-red and golden-apricot fragrant flowers blossoming all Summer. Attractive grey-green foliage. 2-year plants, \$1.25 each, 3 for \$3.45.

TRUMPET VINE

CAMPSIS, MME. GALEN (Hybrid Trumpet Vine)

3-year, \$1.75 each

BOSTON IVY

AMPELOPSIS TRICUSPIDATA

The well known wall covering vine so common to New England. The dark, glossy foliage stands smoke and dust well and turns a brilliant scarlet in Fall; clings firmly to brick, masonry, wood, rocks or stumps. 2 year, 90c. each, \$8.00 per 10; 3-year, \$1.25 each, \$11.00 per 10.

Euonymus Vine

TREES

For Beauty and Grandeur no other group of plants offers so much—the bold masses of color, foliage, fruit, and shade they furnish are indispensable. Their proper use will improve and alter the most barren situation and give new life and charm and movement to established plantings by their interesting patterns of light and shadow and form.

EVERGREENS—for Year Round Beauty

Unexcelled for year round beauty the Evergreens offer you the most adaptable group of plants, suitable for a variety of uses. Well grown, properly placed and cared for evergreens will give a richness and graceful strength not found in any other plant material.

There is a wealth of varieties, varying from the low growing to the lofty specimens and in a color range to please the most particular.

American Arborvitae

ARBORVITAE

This group offers a wide variety of types, varying from dwarf globes to fast growing pyramidal. One or more varieties are usually indispensable for almost any type of Evergreen planting. All forms improve with seasonal shearings and therefore can be held at any desired height.

EVERGREEN SHRUBS

ARISTOCRATS OF THE GARDEN

Leading the procession of garden beauty from Spring through Fall to Spring again, the enduring loveliness of the broadleaved Evergreen Shrubs has well earned for them the title—**Aristocrats of the Garden.**

Their permanent year round, broad green foliage of many shades and size of leaf lends a delightful and pleasing note to all plantings. The attractive contrasts they furnish with other plants heightens the garden interest. The climax to the beauty of these perfect plants is the wealth of bloom they furnish in a glorious range of color and delicacy of flower.

Most of these Evergreen Shrubs thrive happily in partial or deep shade and we in New England are fortunate in having, in general, the acid soil conditions they require for best growth.

Pieris Japonica

ILEX GLABRA

(Inkberry)

Its rich, black-green foliage and shining black berries blend well with other evergreen shrubs in naturalistic plantings. It grows successfully in sun or shade and shearing improves its appearance.

2 to 2½ ft.	6.00

Leucothoe Catesbaei

EUONYMUS

(EVERGREEN BITTERSWEET)

Euonymus fortunei radicans (*Wintercreeper*). A prolific grower, covers walls or stonework closely. Leaves are a dull green with whitish veins. 2-year, 95c. each; 3-year, \$1.35 each; 4-year, \$1.75 each.

E. fortunei carrieri (*Glossy Wintercreeper*). A strong grower with large, glossy, pointed green leaves. If planted without support will grow as a bush—with support will grow as a vine. 3-year plants, \$1.35 each.

E. fortunei kewensis (*Baby Wintercreeper*). Very small, dark green foliage. Creeps close to the ground. Valuable plant for a shady place. Fine, small ground cover under small trees. Potted plants, 75c. each, \$6.50 per 10.

E. fortunei vegetus (*Bigleaf Wintercreeper*). The strongest grower. Large, leathery leaves. Develops orange-red berries which remain on plant greater part of Winter. 2-year, 95c. each, 3-year, \$1.35 each; 4-year, \$1.75 each.

Pieris Floribunda (Mountain Andromeda)

ENKIANTHUS

Enkianthus campanulatus (*Redvein Enkianthus*)

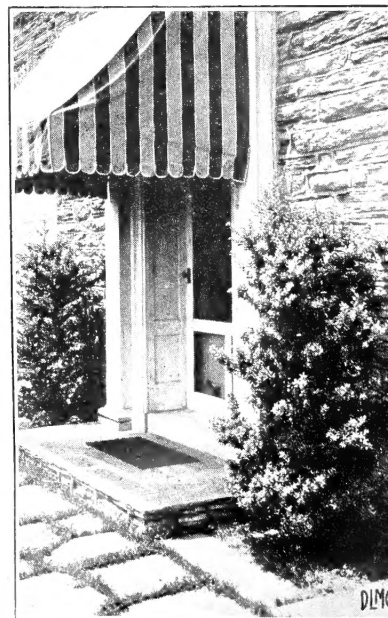

While this is not a true broadleaved evergreen shrub we have listed it with this group because it is so ideally suited for planting with Rhododendrons, Laurels and the other evergreen shrubs.

Handsome shrub with graceful, pendulous flowers of reddish orange and white. Rich green foliage turns bright red in Fall.

2½ to 3 ft. \$7.50

RHODODENDRONS

Without question the tops in evergreen shrubs. The large, splendid foliage of these magnificent plants, coupled with their gorgeous blooms make them the king of garden subjects.

They require an acid soil and a permanent mulch of leaves or peat moss around their base is most beneficial.

HYBRID RHODODENDRON Seedlings

We have an unusually fine group of unnamed Hybrid Rhododendron Seedlings that we are offering at reduced prices. These plants grown from seed, produce a stronger, bushier plant than the grafted plants commonly offered. Had we correctly labeled each plant as to color, the price for these sturdy, well-budded, ready to bloom plants would be much higher. Colors range from pale pink to deep purple.

6 to 9 in. \$1.25 each, \$9.50 per 10
9 to 12 in. 2.25 each, 19.50 per 10

RHODODENDRON CAROLINIANUM

HARDY AZALEAS

FOR EXCITING COLOR

For a wealth of color look to the Hardy Azaleas. The opportunities for using Azaleas are unlimited. The cheerfulness and gaiety they furnish enlivens and brings out the best in landscape plantings. They give a lift to foundation plantings and by their contrast add to the richness of evergreens.

They succeed equally well in sun or shade and in a moderately moist soil.

FLAME AZALEA

Azalea calendulacea. The Flame Azalea is one of the most colorful varieties. Brilliant orange-yellow to scarlet blossoms literally cover the plant in late May.
